We are pleased to begin accepting applications from Omaha Public Schools teachers who teach math in grades 4-6 for ITEAM, the Intermediate TEAchers of Mathematics program. ITEAM is an 18-hour, 13-month graduate program through the University of Nebraska-Lincoln.

- Thanks to the generous support of The Sherwood Foundation® and the Lozier Foundation, this program is available at no cost to the teacher for tuition and fees.
- Ideal for teachers who enjoy teaching mathematics and welcome the opportunity to develop special strengths in mathematical and pedagogical knowledge that can transfer into enhanced learning in their classrooms.
- Participants will take two math classes and earn 6 graduate credits in Summer 2016. Classes will meet Monday-Friday, from 8 a.m. to 5 p.m., July 11-15 and July 18-22.
- The first two courses will be Math 800T: Mathematics as a Second Language (the first course in the Math in the Middle program) and Math 804P: Problem Solving and Critical Thinking in the Elementary Classroom, a course designed by a fifth-grade teacher especially for elementary teachers.
- During the academic year, teachers will take TEAC 808A and TEAC 808J, two education courses that are part of the Primarily Math program. Many assignments are tied directly to teachers’ work in their own classrooms.

Apply now! We are currently accepting applications for the ITEAM program, which will begin coursework on July 11.

Application deadline: May 15

To learn more about ITEAM and the OPS TLA, go to our website: http://scimath.unl.edu/opstla or ask a colleague who has been in Primarily Math or Math in the Middle.

Attend Informational Meetings:

- Tuesday, March 22 (room 5007);
- Wednesday, March 30 (room 5-151);
- or Thursday, April 7 (room 5007)

4:45 p.m. at TAC
