How to Quick Cite in NoodleTools

1. Find your source. This one is from *Gale Issues in Context*

2. Select Citation Tools to see the citation.

3. Copy the citation only.

4. In NoodleTools, click *Create New Citation*.

5. Where is it? It comes from a Database. Click on Database.

6. What is it? Click on *Original Content in Database*.

7. Click on Quick Cite.

8. Paste your copied citation into the *Manually-Edited Citation* box.

9. Now copy and paste the URL into NoodleTools. Click on the green *Submit* button and you’re done!

Citation success! Use the *View Live Web Page* link to get back to your source.
