Write a letter introducing yourself to me. In your letter, include your reasons for taking AP English Language and your goals and expectations for the course. (Please look over the General Characteristics of Students A-F.) In addition, you may discuss your strengths and weaknesses as a writer and a reader and/or your learning style. You may also write about your plans for the future, something or someone important in your life, any concerns you have about this course, or anything you feel would help me to know you better.

This assignment will serve two purposes: it is an informal opportunity for me to get to know you, and it will assist me in assessing your ability to write. Therefore, your letter should be carefully proofread, written in paragraph form, and approximately **two pages** in length. I would greatly appreciate typed and double-spaced letters.
